SUPPLEMENT TO
 REPORT NO.

25X1X

1. On 30 September the Central and South China Bureau issued instructions to the Kwangsi Provincial Committee of the Chinese Communist Party to institute general security inspections in Kwangsi.
2. The instructions stated that the Nanning Materials Workshop and explosives warehouse of the Laipin - Chennankuan Railway had been destroyed by sabotage on 23 July with heavy casualties and a serious loss of property. This episode was used to demonstrate the necessity for stronger security measures.
3. Therefore, commencing 1 October, a general security inspection was to be carried out in various district and municipal organizations, warehouses, corporations, industries, and mines in Kwangsi. The inspections were to be carried out first in the important cities, and important installations were to be inspected in conjunction with provincial and municipal public security organizations.
4. The inspections were to be studied with a view to making recommendations for future inspections of the same nature.

25X1X¹. **Comment.** A Nanning newspaper of 5 September 1951 reported that there had been a big explosion at the Nanning railroad station on 31 July.
